

BLOGS CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

BLOGS is the governed editorial collection. Every post inherits BLOG constraints sourced, compiled, deterministic. The canon here governs every blog post in the collection.

hadleylab.org Governed Research. Every claim cited.

Contents

1 Constraints

2 Capabilities

1. Constraints

- 1 MUST: Every post declares front matter (title, date)
- 1 MUST: Every claim in every post traces to a government
- 1 MUST: Every post includes a Sources table mapping
- 1 MUST: Compiler resolves Sources into inline links
- MUST: Posts compile through MAGIC pipeline Jekyll
- MUST: New posts inherit all SERVICES/BLOG constraints
- MUST: Ledger publish events per post
- MUST NOT: Publish unsourced editorial claims
- MUST NOT: Hand-author inline links (compiler resolves)
- MUST NOT: Use opaque citation codes in reader-facing pages
- MUST NOT: Hand-author compiled outputs
- MUST NOT: Bypass the build pipeline

2. Capabilities

POST_COLLECTION, CLAIM_TRACE,
MAGIC_COMPILE
